

Task Force Marne Hero of the North

Name: SPC DANNY COOPER

Unit: B/2-3 IN

Hometown: ATLANTA, GA

Date of Event: NOV 22, 2009

SPC Cooper was instrumental in providing life saving triage to a Coalition Soldier who was assessed as “Urgent Surgical” following a HMMWV rollover several miles from a proper medical facility. He calmly employed vital skills he learned in Emergency Medical Technician School, Combat Lifesaver course and Stryker First Responder school to identify a broken pelvis and symptoms of hypothermia. SPC Cooper quickly prepared an area inside of the Stryker vehicle to use as a Casualty Collection Point and directed the casualty be placed inside the vehicle with the ramp up and heater on. SPC Cooper then removed his ACU top to further warm the casualty and provided necessary equipment to the medic before asked to. He was praised by the medic for his actions, which bring great credit to him, his unit, and the United States Army. He is a most deserving Task Force Marne Hero of the North.
